EPSON UV Ink - High Quality Ink for Ultraviolet Printing

EPSON UV Ink is a top-of-the-line ink product specifically designed for ultraviolet printing. With its scratch resistant formula and excellent chemical resistance, this ink is perfect for any printing project that requires high durability and long-lasting results. One of the key features of EPSON UV Ink is its compatibility with Epson I1600 and I3200 printheads. These high-performance printheads are known for their precision and efficiency, making them the perfect match for our UV ink. Our UV ink comes in a large volume of 1000 ML, providing you with plenty of ink for all your printing needs. This means less frequent refills and more time spent on printing. In addition, EPSON UV Ink offers a versatile ink configuration of BK/CY/MG/YL/WH, giving you the flexibility to create vibrant, eye-catching prints in a wide range of colors. Whether you're printing on paper, plastic, or other materials, our UV ink will bring your designs to life with its vivid and bold colors. But what sets EPSON UV Ink apart from other printing inks on the market is its exceptional scratch resistance. Our ink is specifically engineered to withstand the wear and tear of daily use, ensuring that your prints remain flawless and intact for a long time to come. Invest in EPSON UV Ink for your next printing project and experience the high quality and durability that only our ink can provide. Try it now and see the difference it makes in your prints!
